With any luck I will have a disk with the CD and AR docs at the library by the end of the day. Maybe we can hold off sending this to her till tomorrow?

Regarding the notices and the outreach, the Spanish version ran in El Semanario on Feb. 7. I have an electronic tear sheet if you want to see it. The English version ran in the Denver Post Your Hub on Feb. 6. I don't think I've seen a tear sheet for that one yet. I sent out an email announcement to the CAG and other stakeholders, including the Cole Neighborhood Association, city council staffers, etc.. announcing this. Rich issued the press release on the 6th. The only media bite so far was from Kevin Beaty at the Denverite.

Ok. I drafted the response to Joan's email. I wanted to add a note saying that the documents were at the library. I checked La Voz and our announcement didn't show up last week or this week. I also checked El Semanario but they don't have a printed version online. I don't remember which of them was supposed to publish it. I also left a request at the library for the February 6 Denver Post. Did the Denver Post send you or Sis a note saying that the announcement was published. I kind of remember that they did something similar for our previous announcement. Here is Joan's response for your review.

Hello Joan:

The documents contained in the deletion docket will vary depending on the type of response (i.e., remedial action, removal action, and no action) and the lead agency (e.g., federal, state, or responsible party). At minimum, the following documents are typically included in the deletion docket for a partial deletion:

- No Action ROD or RA Report for the parcels being proposed for deletion
- A map clearly delineating the boundaries of the parcels proposed for deletion
- State Concurrence Letter
- Bibliography of the Administrative Record citing those documents pertinent to the parcels

The deletion related documents can be downloaded from the docket, EPA-HQ-SFUND-1999-0010, at www.regulations.gov or by following the link in the notice at EPA's website at <https://www.epa.gov/co/opportunity-comment-partial-deletion-vasquez-boulevard-and-i-70-superfund-site>. The newspaper announcement was done in English and Spanish. The EPA website also has a note that Spanish speaking persons can contact me.

You can review closeout procedures at <https://www.epa.gov/superfund/close-out-procedures-national-priorities-list-superfund-sites>.

I see the deletion docs on our website. Thank you so much all of you!!

Rodney – in addition to burning those CDs (I think I asked for 4 copies) of the AR for VB/I-70, could you also create for me 4 CDs of these deletion documents?

Thank you,
-jc

Importance: High

Good morning Dave,

Thank you for your work on this. I reviewed the AR index yesterday, and tentatively identified a number of documents to move to the site file b/c they don't appear to meet the criteria for inclusion in the AR under the guidance. Jesse – in his capacity as the RPM – needs to concur before Rodney can recode the docs. Let me know if you have any questions.

Thanks,
Mark

I created a SEMS collection for web publishing this, linked the R8 Indexers group to the collection, and added all the requested documents that are currently available in SEMS to the collection. I did not freeze or web publish the collection. Rodney/ Beau/ Meghan, please expedite cataloging & uploading the VB I70 site boundary map & OU1 State concurrence letter documents into SEMS.

Linda, Jennifer, Mark, note that these documents SEMS titles are not the same as the document titles that Linda specified for the collection. Besides the letter case variations, there are various other wording differences between Linda's title and the SEMS document title, e.g. "Request for Non_Time Critical Removal Action Memo" (Linda's title) & "2003 ACTION MEMO W/ ATTACHED SITE LOCATION MAP, TABLES - PHASE III SUMMARY STATISTICS OF AVERAGE CONCENTRATIONS, ARARS & ATTACHEMENT 1 PRP INFORMATION – PRIV" (SEMS doc title) are the same document, doc ID 2009554. If you do want documents retitled, the most time consuming part of that would be determining the new titles.

I can publish this collection as is upon request. For now, I am waiting for the two new documents to get into SEMS before web publishing.

The documents in this collection in SEMS are:

Rodney, and you make a special collection for these docs, titled "2019 OU1 Deletion Partial Deletion Documents." Please advise when you have created the collection, and the collection number.

They need to go into a special collection in SEMS like any other document. Dave then publishes that collection to make it live on the website.

I can create the collection and add the docs to it once they are available in SEMS.

Hi all. How do we typically get deletion docs uploaded to our website in the documents section? We just published a NOID for VB/I-70 OU1 and I need to get the supporting docs for the deletion up on our website as well as in the Info Repo.

Thanks in advance for your help,
-jc
